VIRTUAL
Summer AOP Symposium
JULY 1–11, 2022
REGISTRATION CLOSES JUNE 29, 2022
Certification and Education for Eye Care Excellence

VIRTUAL Summer AOP Symposium

Courses are available from Friday, July 1, at 8:00 a.m. Central time through Monday, July 11, 2022, at 11:59 p.m. Central time.

Complete courses at your own pace, quiz free, and earn up to 7 IJCAHPO CE credits.

AMSLER GRID TESTING REVISITED FOR MACULA OPTIC NERVE AND CENTRAL PATHOLOGIES

Jade Schiffman, MD, FAAO, FAAN

This course will explore how to obtain maximal information from your patients during the pandemic and beyond, by screening before the clinic and by monitoring after the clinic. It will demonstrate how an Amsler test on an iPhone can give similar results as a 10-degree visual field test with documentation of those results over time, which can be sent immediately for review by ophthalmologists. Financial interest disclosed.

EVALUATION AND TREATMENT OF EYELID MALIGNANCIES

Richard Allen, MD, PhD, FACS

This course will review the common eyelid malignancies, including their presentation, clinical characteristics, and treatment. In addition, reconstructive strategies after resection of the eyelid malignancies will be reviewed.

IMAGING IN RETINAL VASCULAR DISEASE

Craig Simms, BSc, COMT, CDOS, ROUB

This course will cover imaging techniques specific to retinal vascular disease. The imaging techniques discussed include fundus biomicroscopy, fundus photography, fluorescein angiography, optical coherence tomography and indocyanine green. The discussion will be focused on how these techniques are used in the imaging of retinal vascular disease. Examples of features of retinal vascular disease, as imaged by the described imaging techniques, will be shown.

OCULAR MOTILITY

Gary Schemmer, MD

This course will discuss the anatomy and function of the extraocular muscles, innervation of the muscles, history taking for motility problems, and types of testing methods for ocular motility. It will also review common childhood and adult motility problems.

VISUAL FIELDS FOR AOP

Craig Simms, BSc, COMT, CDOS, ROUB

This course will cover how visual fields relate to the visual pathways before moving into the essence of visual field testing including manual Goldmann and automated perimetry. The course will finish with the interpretation of automated visual fields including the Humphrey Field Analyzer and Octopus Visual Field system.

WHAT’S NEW IN OCULAR SURFACE DISEASE

Francis Mah, MD

This course will encompass management of ocular surface disease (OSD). Topics will include the following: 1) why OSD matters; 2) developing an OSD algorithm and exam; 3) new and old treatments of dry eye and blepharitis; and 4) new tests to help diagnose and manage dry eye and blepharitis.

WORLD BLINDNESS

Geoffrey Tabin, MD

Eighty-five percent of blindness is preventable or curable. This course will discuss the major causes of blindness in the world.

GENERAL INFORMATION

Handouts
Any course handouts that have been provided will be accessible from the course platform.

Cancellations/Refunds
All cancellations and requests for refunds must be received by IJCAHPO in writing. A processing fee of $50 is deducted from each cancelled registration to cover a portion of the costs IJCAHPO incurs.

Continuing Education Credits
IJCAHPO and CA BRN continuing education credits have been approved for this meeting. Continuing education credits earned will be posted on your account at www.jcahpo.org approximately 4–6 weeks after the program for participants who complete evaluation forms.

NOTE: Attendance is monitored for each hour of instruction. Participants absent for more than 15 minutes of any given hour will not receive credit for that hour.

For additional information regarding registration, contact IJCAHPO at 800-284-3937, e-mail registrations@jcahpo.org, or visit www.jcahpo.org.

I wish to register for:
All check payments must be in U.S. funds and drawn on a U.S. bank.
